Embedded Systems Engineer with hands-on experience in developing devices, robots, and designing electronic circuits. excel at executing technical projects and working within a team to achieve defined goals. looking to join a team where can apply my skills in system development and technical innovation to drive mutual success.

Education

faculty of agriculture Alexandria university, Department of Agricultural Engineering
Aspire Leaders Program, ASPIRE INSTITUTE

2024 – 2025

Experience

Embedded System engineer at Comet Lab

2024 – Present

- Developed and enhanced various devices and robots.
- Wrote and optimized code for microcontrollers.
- Designed and manufactured PCBs using Altium.
- Performed extensive hardware tasks, ensuring device functionality and reliability.

Tech Makes internship at EME BORG

2024 [2months]

- 3D & 2D Design
- Laser Cutting & CNC Router
- 3D Printing
- Arduino - ESP32 – Raspberry pi
- Electronics Principles
- PCBs for prototypes

Intern at Comet Lab

2023 – 2024

Technical Skills

- C and C++ Programming Language
- Flutter “beginner”
- ROS “beginner”
- Electronic
- PCB Design & manufacturing
- Microcontroller

Tools:

SolidWorks - Altium - Eagle - VS code

Soft Skills

- Discipline
- Self-Learning
- Problem-Solving
- Team Collaboration
- Communication Skills
- Adaptability

Language

- **Arabic:** Native.
- **English:** good.
